

Ms. Ania Skowron, W2L, Greece

24th of May, 14.30 – 16.00 CET

Abstract

The workshop is for everyone who wishes to upgrade their skills in preparing effective presentations. The key to success is following several simple rules such as e.g. "60/30/10" or "the less, the better". During the presentation, we will carefully look at every one of them. The participants will leave the workshop with practical information about preparing presentations; they will get to know tools thanks to which preparing presentations is almost effortless, and repositories full of ready-to-use and free-to-use images. Everything served in the form of a hands-on workshop during which the participants will get a chance to put the theory into practice.
